THE

SCIENTIFIC PROCEEDINGS

OF THE

ROYAL DUBLIN SOCIETY.

New Series.

VOLUME XVI.

DUBLIN:
PUBLISHED BY THE ROYAL DUBLIN SOCIETY,
LEINSTER HOUSE, DUBLIN.
WILLIAMS & NORGATE,
14 HENRIETTA STREET, COVENT GARDEN, LONDON, W.C.
1920–1922.

THE SOCIETY *desires it to be understood that it is not answerable for any opinion, representation of facts, or train of reasoning that may appear in this Volume of its Proceedings. The Authors of the several Memoirs are alone responsible for their contents.*

ERRATUM

p. 63, line 2, *for* "oxygen" *read* "water."

DUBLIN: PRINTED AT THE UNIVERSITY PRESS BY PONSONBY AND GIBBS.

CONTENTS.

VOL. XVI.

No. PAGE

I.—A Cryoscopic Method for the Estimation of Sucrose. By Henry H. Dixon, sc.d., f.r.s., and T. G. Mason, m.a., sc.b. (January, 1920.) 1

II.—The Carboniferous Coast-Section at Malahide, Co. Dublin. By Louis B. Smyth, b.a., sc.b. (Plates I, II.) (February, 1920.) 9

III.—The Application of the Food-Unit Method to the Fattening of Cattle. By James Wilson, m.a., b.sc. (Plates III, IV.) (February, 1920.) 25

IV.—The Holothurioidea of the Coasts of Ireland. By Anne L. Massy. (April, 1920.) 37

V.—Photosynthesis and the Electronic Theory. By Henry H. Dixon, sc.d., f.r.s., and Horace H. Poole, sc.d. (March, 1920.) 63

VI.—Note on the Decay of Magnetism in Bar Magnets. By William Brown, b.sc. (March, 1920.) 78

VII.—On the Inhibition of Invertase in the Sap of *Galanthus nivalis*. By T. G. Mason, m.a., sc.b. (April, 1920.) 83

VIII.—The Change in the Rigidity of Nickel Wire with Magnetic Fields. By William Brown, b.sc., and Patrick O'Callaghan, a.r.c.sc.i., a.i.c. (August, 1920.) 98

IX.—Some Derivatives of Nitrotoluidine (4-nitro-2-amido-1-methylbenzene). By A. G. G. Leonard, a.r.c.sc.i., b.sc., ph.d., and Agnes Browne, a.r.c.sc.i., b.sc. (August, 1920.) . 105

X.—An Investigation into the Causes of the Self-Ignition of Ether-Air Mixtures. By the late Professor J. A. McClelland, d.sc., f.r.s., and Rev. H. V. Gill, s.j., d.s.o., m.c., m.a. (August, 1920.) 109

No. PAGE.

XI.—The Influence of Electrolytic Dissociation on the Distillation in Steam of the Volatile Fatty Acids. By JOSEPH REILLY, M.A., D.SC., F.R.C.SC.I., and WILFRED J. HICKINBOTTOM, B.SC. (October, 1920.) 120

XII.—Notes on some Applications of the Method of Distillation in Steam. By JOSEPH REILLY, M.A., D.SC., F.R.C.SC.I., and WILFRED J. HICKINBOTTOM, B.SC. (October, 1920.) . . 131

XIII.—The Determination of the Rate of Solution of Atmospheric Nitrogen and Oxygen by Water. By W. E. ADENEY, D.SC., A.R.C.SC.I., F.I.C., and H. G. BECKER, A.R.C.SC.I., A.I.C. (September, 1920.) 143

XIV.—A Determination, by means of a Differential Calorimeter, of the Heat produced during the Inversion of Sucrose. By HENRY H. DIXON, SC.D., F.R.S., and NIGEL G. BALL, B.A. (December, 1920.) 153

XV.—The Measurement of very Short Time Intervals by the Condenser-Charging Method. By JOHN J. DOWLING, M.A., F.INST.P., and DONAL DONNELLY, M.SC. (In conjunction with the late Prof. J. A. MCCLELLAND, F.R.S.) (February, 1921.) 165

XVI.—A Vibrating-Flame Rectifier for High-Tension Currents. By JOHN J. DOWLING, M.A., F.INST.P., and J. T. HARRIS, B.SC. (February, 1921.) 171

XVII.—A Sensitive Valve Method for the Measurement of Capacity, with some Important Applications. By JOHN J. DOWLING, M.A., F.INST.P. (February, 1921.) 175

XVIII.—A Direct Reading Ultra-Micrometer. By JOHN J. DOWLING, M.A., M.R.I.A., F.INST.P. (March, 1921.) . . . 185

XIX.—Studies in the Physiography and Glacial Geology of Southern Patagonia. By E. G. FENTON. (Plates V, VI, and VII.) (March, 1921.) 189

XX.—Award of the Boyle Medal to GEORGE H. PETHYBRIDGE, B.SC., PH.D., 1921. (March, 1921). 226

XXI.—The Concentration and Purification of Alcoholic Fermentation Liquors. Part I.—The Distillation in Steam of certain Alcohols. By JOSEPH REILLY, M.A., D.SC., M.R.I.A., F.I.C., and WILFRED J. HICKINBOTTOM, M.SC., A.I.C. (August, 1921.) . 233

XXII.—The "Browning" and "Stem-Break" Disease of Cultivated Flax (*Linum usitatissimum*), caused by *Polyspora lini* n. gen. et sp. By H. A. LAFFERTY, A.R.C.SC.I. (Plates VIII–X.) (August, 1921.) 248

No. PAGE

XXIII.—A New Principle in Blowpipe Construction. By H. G. Becker, A.R.C.Sc.I., A.I.C. (August, 1921.) 275

XXIV.—Uncharged Nuclei produced in Moist Air by Ultra-Violet Light and other Sources. By the late Prof. J. A. McClelland, F.R.S., and J. J. M'Henry, M.Sc. (August, 1921.) . . 282

XXV.—Biological Studies of *Aphis rumicis* L. A.—Appearance of Winged Forms. B.—Appearance of Sexual Forms. By J. Davidson, D.Sc. (August, 1921.) 304

XXVI.—The Occurrence of Dewalquea in the Coal-Bore at Washing Bay. By T. Johnson, D.Sc., F.L.S., and Jane G. Gilmore, B.Sc. (Plates XI, XII.) (August, 1921.) . . . 32

XXVII.—A Simple Form of Apparatus for observing the Rate of Reaction between Gases and Liquids, and its use in determining the Rate of Solution of Oxygen by Water under different conditions of Mixing. By H. G. Becker, A.R.C.Sc.I., A.I.C. (August, 1921.) 334

XXVIII.—The Occurrence of a Sequoia at Washing Bay. By T. Johnson, D.Sc., F.L.S., and Jane G. Gilmore, B.Sc. (Plates XIII, XIV.) (August, 1921.) 345

XXIX.—The Sources of Infection of Potato Tubers with the Blight Fungus, *Phytophthora infestans*. By Paul A. Murphy, B.A., A.R.C.Sc.I. (August, 1921.) 353

XXX.—Some Factors affecting the Hydrogen Ion Concentration of the Soil and its Relation to Plant Distribution. By W. R. G. Atkins, O.B.E., Sc.D., F.I.C. (February, 1922.) . . 369

XXXI.—The Hydrogen Ion Concentration of Plant Cells. By W. R. G. Atkins, O.B.E., Sc.D., F.I.C. (February, 1922.) . . 414

XXXII.—Note on the Occurrence of the Finger and Toe Disease of Turnips in Relation to the Hydrogen Ion Concentration of the Soil. By W. R. G. Atkins, O.B.E., Sc.D., F.I.C. (February, 1922.) 427

XXXIII.—Photosynthesis and the Electronic Theory (II). By Henry H. Dixon, Sc.D., F.R.S., and Nigel G. Ball, M.A. (February, 1922.) 435

XXXIV.—The Bionomics of the Conidia of *Phytophthora infestans* (Mont.) De Bary. By Paul A. Murphy, B.A., A.R.C.Sc.I. (February, 1922.) 442

XXXV.—On the Distribution of Activity in Radium Therapy under different conditions of Screening. By H. H. Poole, M.A., Sc.D. (April, 1922.) 467

No. PAGE

XXXVI.—The Influence of Feeding on Milk Fat. By E. J. Sheehy, F.R.C.Sc.I., B.Sc. (April, 1922.) 478

XXXVII.—On a New Method of Gauging the Discharge of Rivers. By J. Joly, Sc.D., F.R.S., F.T.C.D. (April, 1922.) . . 489

XXXVIII.—On a Variety of Pinite occurring at Ballycorus, Co. Dublin. By Louis B. Smyth, M.A., Sc.B. (April, 1922.) . . 492

XXXIX.—On the Life-History and Bionomics of the Flax Flea-Beetle (*Longitarsus parvulus*, Payk.), with Descriptions of the hitherto unknown Larval and Pupal Stages. By J. G. Rhynehart, A.R.C.Sc.I., D.I.C., N.D.A. (Plates XV–XIX.) (April, 1922.) 497
